Subject: Happy Birthday.

Dear Mr. Newman. My name is Eric Hodge. I am an amateur numismatist specialising in U.K. Merchant countermarked dollars 1780-1830. My research follows the excellent work done by Harry Manville. The implementation of the NNP is such an incredible tool that allows researchers to see further, even, than standing on the shoulders of others. I wish to thank you for instigating this project and making it freely available. May I wish you a Happy and Healthy birthday. You are a wonderful man.

Yours faithfully, Eric Hodge.
